Objective

Motivated and detail-oriented Computer Science Engineering student with strong skills in Python, Django, and full-stack development. Seeking opportunities where I can apply my technical skills, build impactful software, and grow professionally.

Education

B.Tech in Computer Science Engineering Mohandas College of Engineering & Technology – KTU Affiliated CGPA:7	2023 – 2026
Python Fullstack Zion IT Company	2022 – 2023
Diploma in Computer Science Engineering NSS polytechnic Pandalam CGPA:8.73	2022
Higher Secondary	2019

Technical Skills

- **Languages:** Python, Java, C
- **Frameworks:** Django
- **Frontend:** HTML, CSS, JavaScript
- **Database:** SQLite
- **Tools:** Git, GitHub, VS Code

Projects

1.Attendance Management System (Mini Project)

Tech: Django, Python, HTML/CSS, SQLite

Developed a Django-based system to manage attendance over multiple periods. It automatically calculates percentages and provides role-based access. The system sends email alerts to students and teachers when attendance falls below 75%.

2.AI-Based Tomato Leaf Disease Detection System (Main Project)

Tech: Python, Django, TensorFlow/Keras, CNN, GPT API

Developed a CNN+SVM-based plant disease detection system using real field tomato leaf images. Included preprocessing, augmentation, and a simple interface to offer accurate disease classification with treatment suggestions. This allows farmers to diagnose problems right away.

Soft Skills

- Problem-solving
- Teamwork
- Fast learner and adaptive

Languages

- English (Proficient)
- Malayalam (Native)
- Hindi (Conversational)

Experience

Actively seeking internships and freelance opportunities to use my skills in real-world software development and AI projects.
